## **DETAILED ACTION**

(1)

### ***Allowable Subject Matter***

Claims 37-48 have been found to be allowable over the prior art of record.

(2)

The following is an examiner's statement of reasons for allowance:

Decorated wood composite structures having a plurality of die-cut foil pieces disposed on the surface thereof, such as taught by EP 816122 to Misumi et al., are known in the art. Misumi et al., for example, disclose a decorated wood composite comprising: A wood composite substrate; one or more foil pieces uniformly coating at least one portion of a surface of the wood composite; and an overlay foil uniformly coating the surface of the wood composite. Although Misumi et al. disclose that the overlaying foil may be applied only over those regions of the wood composite having the foil pieces applied thereto or on both the foil pieces and other regions of the wood composite surface on which the foil pieces have not been applied, none of the prior art of record specifically teaches or suggests a semi-finished wood composite structure as set forth in applicant claim 37 wherein both the decal sheets and the overlaying foil comprise a transferable coating on a removable carrier sheet.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

(3)

### ***Response to Amendments and Arguments***

The amendments and arguments filed September 2, 2004 are acknowledged. In response to the amendments to applicant claim 37,<sup>1</sup> claims 37-48 have been passed to issue as set forth and explained in sections (1) and (2), above.

---

<sup>1</sup> The amendments to Applicant claim 37 appear to be in response to the Examiner's suggestions set forth during the personal interview conducted on August 31, 2004. A copy of the Interview Summary is attached hereto.
